Respected Sir

Greetings

In the Meghraj Taluka There are around 200 Primary Schools where education for standard 1<sup>st</sup> to 8<sup>th</sup> available about 25000 children taking education from these school. From last two year, our institute has been running school screening program under child sight project. In this program, we are approaching to the school for screening children & providing vitamin A&D and wormicide tablets. If some child required refractive correction during screening, we are providing spectacle at free of cost, which cost us around 150 rupees/ piece. Spectacle are also delivered to their school on follow up visit after one week by our hospital person during screening if some child require surgical treatment (like traumatic cataract, chalazion, lacrimal surgery,

wound repair ETC). We brought those children at base hospital & give surgical treatment at free of cost.

Every year we provide about 500 Prescribed Glasses to school going children totally free of cost.

Cost of child sight project / School Screening Programme is around. Rs.5 to 6 Lakh (Dollars 9,000/ to 10,000/)

We ensure that your donation will surely move in right direction

Thanks and regards,

--
